

## Ministry of Defence – New Developments Ghana

While working on the Mobile Care and Kallo Modular Rural Healthcare Delivery System proposals with the Ministry of Health, the Kallo team in Ghana realized an opportunity for a Mobile Care program with the Ministry of Defence; in the areas of enabling healthcare delivery services for active duty members and their families, healthcare provision at Defence Barracks for routine medical check-ups, Disaster Management, and for Presidential Entourage.

A Mobile Care proposal was submitted to the Minister of Defence on 19<sup>th</sup> May, 2013, and after the initial review process, Kallo was invited to present the Mobile Care program to the Ministry of Defence and to Group Captain Isaac Wayoe, Director General of Planning and Development. Immediately following this presentation, a Ministry of Defence Review Committee opted to quicken the procurement process by arranging a clinical review meeting at 37 Military Hospital on 29<sup>th</sup> June, 2013, which is the main tertiary care hospital of the Ministry of Defence. Further to this, a meeting of executives and ministerial stakeholders is now scheduled for the 30<sup>th</sup> July 2013.

Based on the response from both the technical and clinical review personnel of the Ministry of Defence, we are confident that Kallo Mobile Care program will be considered favorably for procurement by the Ministry of Defence Ghana.
